DR. DAVID MOBLEY IS HONORED AMONG THE NATION'S TOP PLASTIC SURGEONS.

Great plastic surgery is a mix of artistry, experience and science. The best plastic surgeons offer a delicate touch, vast experience and an aesthetic eye. But they also need "excellent communication to help educate the patient, and provide them with realistic expectations," says Dr. David L. Mobley of Sarasota Plastic Surgery Center. Dr. Mobley offers regular seminars showcasing the latest technologies and advances in aesthetic procedures.

The center's striking headquarters features state-of-the-art surgical facilities and a state-licensed and federally certified ambulatory surgery center. Dr. Mobley, who is certified by the American Board of Plastic Surgery, shares the practice with Dr. Braun H. Graham and Dr. James H. Schmidt, distinguished surgeons who are also board-certified. All three are members of the

American Society of Plastic Surgeons and the American Society for Aesthetic Plastic Surgery. They specialize in the gold standards of aesthetic surgery—which include facelifts, eyelid surgery, laser resurfacing, breast enlargement and liposuction—as well as some of the latest innovations, such as the Fraxel laser.

The practice also offers a new state-of-the-art medical spa that features innovative medical aesthetic treatments like Fraxel laser, Botox Cosmetic, Restylane, Juvederm, IPL hair removal, as well as permanent make-up.

Honored as one of the nation's top plastic surgeons in the 2006 *Guide to America's Top Physicians*, Dr. Mobley has two decades of training and experience in all aspects of cosmetic and plastic surgery.

"There's nothing more rewarding than helping people feel better about themselves," says Dr. Mobley. "I'm honored to work with a devoted, highly qualified staff. Together we are dedicated to providing excellent surgical improvements and helping people achieve their optimal health and beauty."
